"Four Season" factory air conditioner

The "Four-Season" factory air conditioner is a modern heating, cooling and ventilating system. It can be operated on outside air, recirculated air, or a mixture of both to control the temperature and reduce humidity.

Features of "Four-Season" Climate Control:

- Conditioned air has excess moisture and 98% of the irritating pollen removed from the air.
- A quieter ride with less wind roar as you ride with all windows closed.
- Enjoy your favorite radio program in a quiet, tension-free ride.
- "Bi-Level" air feature of warm air on the floor and cool air at the breath level on the in-between days of Spring and Fall.
- Reduced driving tension on hot and high humidity days.
- Smoke and odor-free air when using outside air with either the air conditioner or heater.
- General Motors proven quality, reliability and dependable low maintenance and operating costs.

Only available as a factory option.

The right temperature at the right time 365 days
a year for complete driving comfort.
Ride COOL and refreshed with Four-Season
Air Conditioning . . . enjoy a new driving thrill the year
'round no matter what the outside weather . . .

NOVA

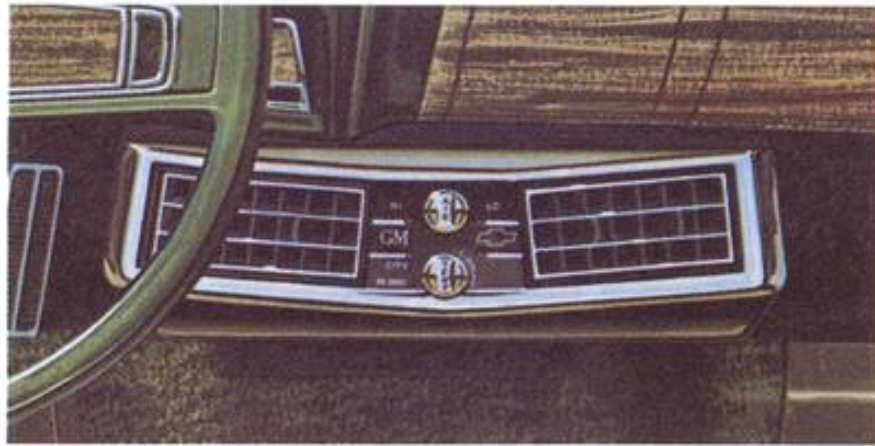

CAMARO

GM Chevrolet air conditioner

The G.M. Chevrolet Air Conditioner is designed to be an integral part of the car and cools efficiently under all driving and weather conditions. The front and two side air outlets are adjustable to allow cool air distribution that best meets the passengers comfort. The volume of cool air is controlled by a three-speed "twin" blower system.

Driving comforts you will enjoy:

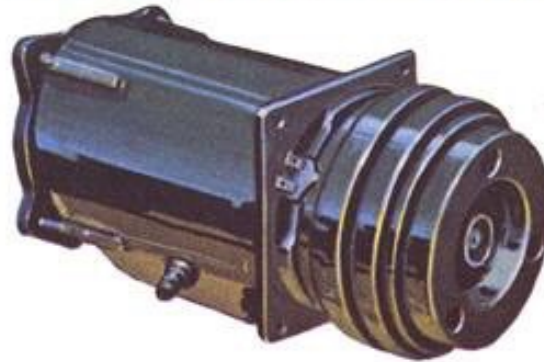

- Arriving with no perspiration damp or wrinkled clothing.
- Clean, refreshing air with 98% of irritating pollen removed.
- Reduced driving tension on hot and high humidity days.
- Enjoy your favorite radio programs in a quiet, tension-free ride.
- Warm air on the floor and cool air in the upper level of the car with both the heater and air conditioner operating on the in-between days of Spring and Fall.
- The quieter ride with less wind roar as you ride with all windows closed.
- General Motors proven quality, reliability and dependable low maintenance and operating costs.

Only available as a dealer-installed option.

Frigidaire air conditioning compressors

The heart of any air conditioner is the compressor. The Frigidaire Compressor is the only six cylinder axial type compressor with an electro-magnetic clutch used for automotive air conditioning. Most automotive air conditioners use a two cylinder-type compressor. Three double-acting pistons make up the six cylinders. The pistons are mounted axially around the compressor shaft to operate in a front and rear cylinder assembly and are actuated by a swash plate driven by the compressor crankshaft. Each cylinder end has its own suction and discharge valve and the front and rear heads are interconnected to combine pumping action at the rear head where all external refrigerant connections are made. Balanced to minimize noise and vibration, Frigidaire Compressor will give long, trouble-free service and high cooling performance under all driving conditions. The Frigidaire Compressor is completely serviceable.

**Only GM Air Conditioners use
Genuine Frigidaire Compressors.**

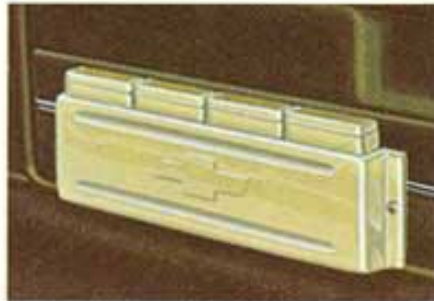

a new world of listening pleasure for your entertainment

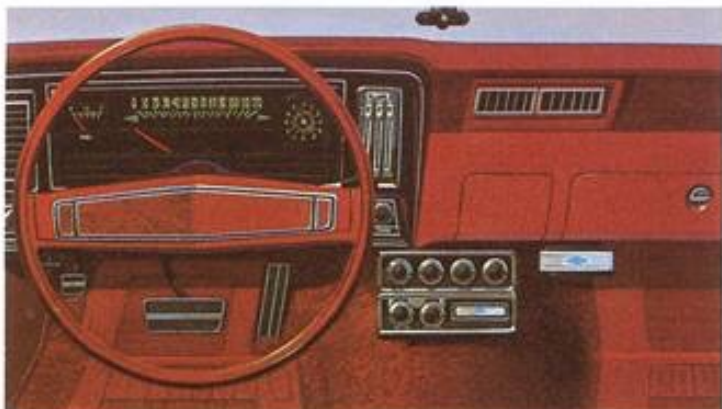

The Ultimate in Listening Pleasure

Chevrolet radios, stereo multiplex and tape players use the latest techniques which assure dependable, high-quality performance.

Tape cartridge holder

Designed to mount on the inside of the front doors for holding spare tapes. Each holder accommodates four tape cartridges.

Rear seat speaker

Can be used with your choice of radios. The speaker is matched to the front speaker and includes a fader-type control so either the front or rear speaker can be played separately or both speakers can be played simultaneously.

Solid state stereo tape players

The tape player is an eight track solid state unit with 11 transistors and one diode that can be used with or without a radio. Like FM Stereo the tape unit is the nearest thing to "Concert Hall" or live entertainment for a car. The tape system includes four speakers wired to surround the listener as if he were sitting in the middle of the orchestra. Tape units are free of atmospheric and power line interference. Each unit includes one outstanding tape. Additional tapes available through record and music stores.

Solid state stereo multiplex

Two front and rear speakers are used with Stereo Units. The speakers are wired so that all passengers are completely surrounded by sound. The unit is used in conjunction with an AM-FM radio. The unit uses eleven transistors, five diodes and multiple speakers. An indicator light signifies when the FM station is broadcasting a multiplex signal. Can be installed with a tape player as a factory option.

Solid state push-button radio and antenna

A solid state six transistor radio that has three diodes and five push buttons. Can be set to your favorite local stations for quick and accurate tuning.

Your choice of front or rear antenna.

Solid state AM-FM radio and antenna

The solid state thirteen transistor radio has nine diodes for outstanding performance. The FM band is virtually free of atmospheric static. Provisions in the radio adapt to a Stereo Multiplex Unit.

Available only with 31 inch front antenna.

custom feature accessories for added appearance

Wheel covers

A set of four stainless steel wheel covers coated with chrome to retain a bright finish indefinitely.

Magnesium wheel covers

Four simulated wheel covers that are difficult to distinguish from the genuine magnesium wheels.

Wire wheel covers

Four simulated covers that resemble genuine wire wheels.

Fender guards

Attaches to the fender wheel opening of front or rear fenders. Adds additional protection and appearance to the car.

Front and rear bumper guards

Steel guards with a heavy chrome plating and rubber inserts that add additional protection and appearance to the car.

Door edge guards

Guards prevent nicks and paint chipping on door edges and add to the appearance of the car.

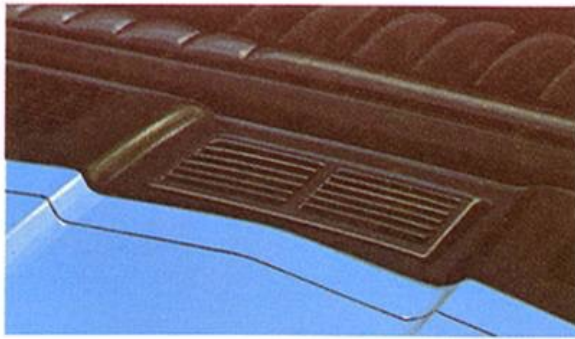

FERRIS WHEEL

1969

1969

custom feature accessories for added convenience

Rear window defogger

Directs a stream of warm air over the rear window to reduce fog, ice and snow from the window.

Vanity visor mirror

An eight inch mirror that fastens to the sun visor.

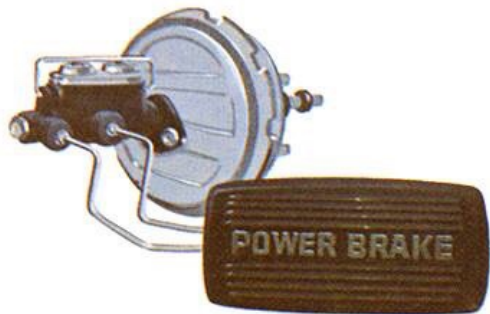

Tissue dispenser

A handy dispenser attached to the lower edge of the instrument panel, complete with a box of tissues.

Nova right-hand rearview mirror

This first surface chrome-coated mirror assures good undistorted rear vision.

Power brakes

Low pedal-type brake has dual master cylinder for effortless, positive braking.

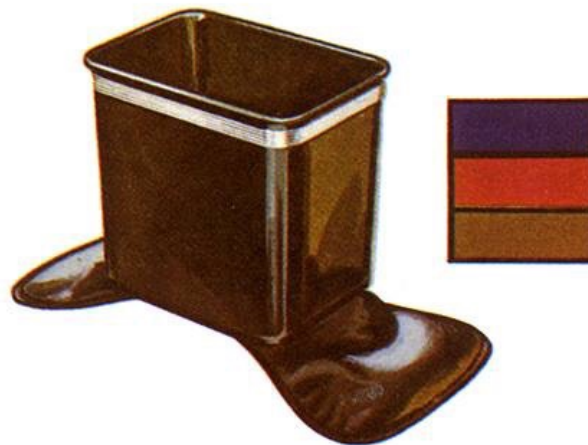

Electric clock

A precision, reliable timepiece with illuminated dial face and sweep second hand.

Tachometer

This transistorized electronic-type tachometer for eight cylinder engines will maintain a high degree of accuracy.

Litter container

This durable plastic container has a saddle-type mounting to fit over the tunnel in the front or rear compartment. Suitable for road maps and other small travel items.

Auto compass

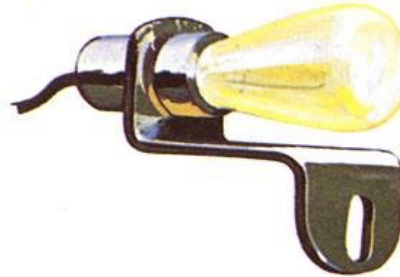

A dependable compass that attaches to the windshield. The compass dial is illuminated by a battery that can be incorporated in the compass.

custom feature accessories for more convenient lighting

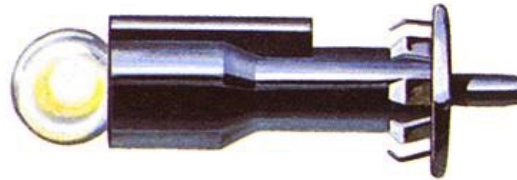

Underhood light

Illuminates the entire engine compartment automatically when the hood is opened.

Luggage compartment light

Illuminates the luggage area automatically when the trunk lid is opened.

Glove compartment light

Automatically illuminates the glove compartment area when the door is opened.

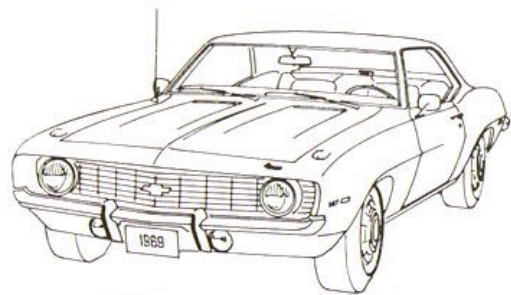

Ashtray light

Illuminates the ashtray interior when the headlamps are turned on at night.

Courtesy lights

Illuminates the entire front floor area automatically when either front door is opened.

GM Vigilite

This light monitoring system uses fiber-optic principles to transmit light to jeweled indicators located on the front fenders for the front lights. A jeweled indicator is located below the rear window for rear lights. The rear lights can be observed through the rearview mirror. When lights are in use, the GM Vigilite indicates front and rear functioning and nonfunctioning lights.

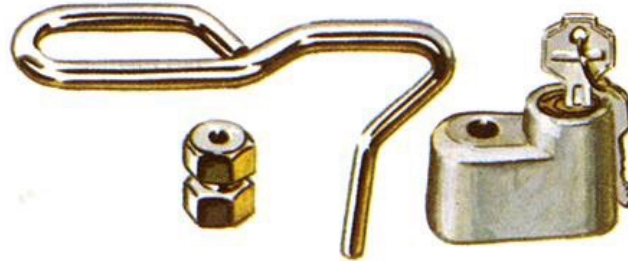

custom feature accessories for added protection

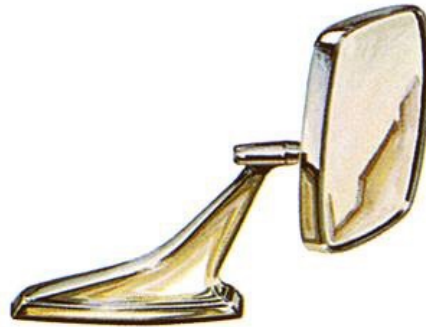

Locking gasoline tank cap

Prevents gasoline from being contaminated or siphoned from the tank.

Spare tire lock

Lock assembly prevents the spare tire and wheel from being removed without a key.

Camaro right-hand rearview mirror

A first surface chrome-coated mirror glass assures good undistorted rear vision.

Fire extinguisher

Approved by Underwriters Laboratories, I.C.C. and meets U.S. Coast Guard Regulations for Marine use.

Highway emergency kit

A handy kit for highway emergencies. The U.L. approved fire extinguisher will handle small fires. The tire inflator and sealer will inflate and seal punctures without removing the tire. The emergency repair can be driven up to 100 miles. The "Day-Glo" flag is to signal for help. The two 15 minute fuses can be used when the vehicle is disabled. A box of assorted fuses is included.

DELUXE

STANDARD

GM Child safety seat

The new G.M. Child Safety Seat is designed for children weighing up to 30 pounds. The seat is available in a padded deluxe model with armrest bar and a standard type without padding or armrest bar. The seat must be used along with the car's regular seat belt. (Should not be used with folding seat without a seatback latch.)

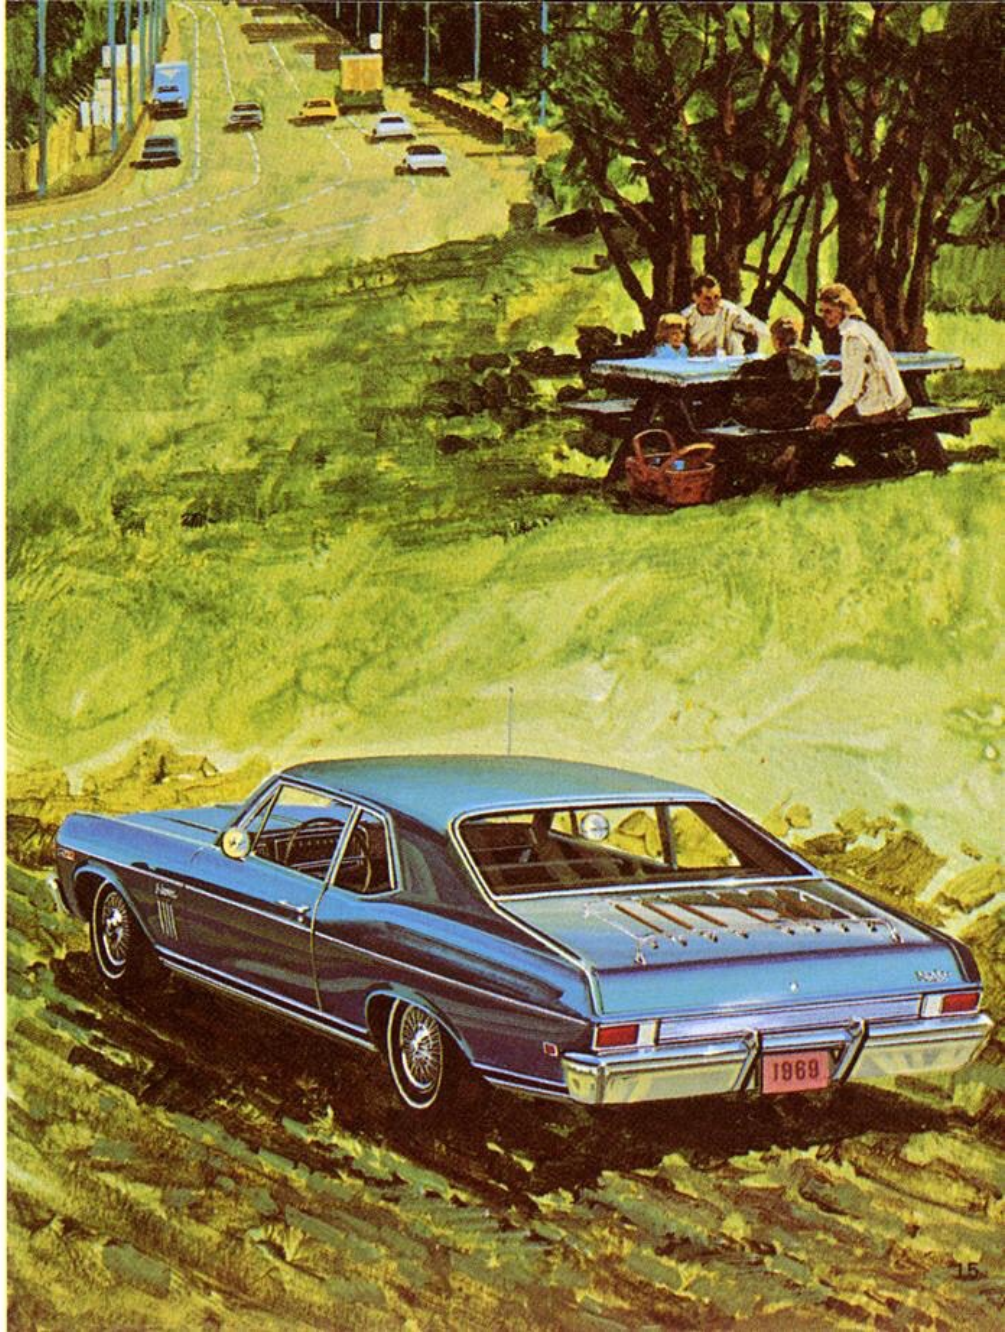

Rear door locks

A handy two-way locking device for car doors. When the regular door lock plunger is depressed and the accessory door lock pushed into the locked position, the door cannot be opened.

Camaro Cruise-master speed control

A new concept in road speed control. You drive to the desired speed to cruise and depress the engagement button in the direction signal lever. The Cruise-Master takes over and maintains that speed. The system automatically disengages when the brake is applied.

custom feature
accessories
for your pleasure
and leisure hours

Rear deck lid luggage carrier

A stainless steel luggage carrier that improves the appearance and adds additional cargo capacity.

Ski rack for car top

This clamp-on ski rack is ideal for transporting water or snow skis to the lodge or beach.

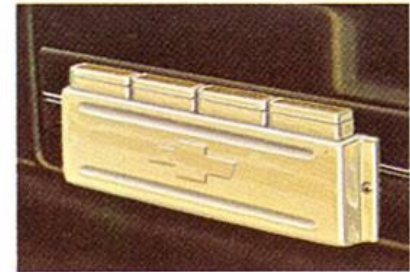

Solid state stereo tape player

The tape player can be used with or without a radio and is free of atmospheric disturbances and powerline interference.

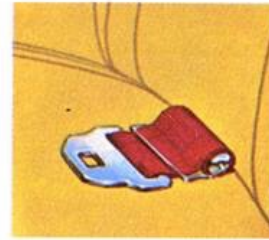

Tape cartridge holder

This handy container will accommodate four stereo tape cartridges. It is conveniently located on the lower front corner of either or both front doors.

custom feature accessories

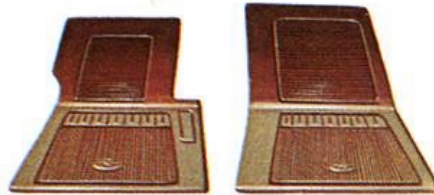

Seat belt retractors

Prevents belts from accidentally hanging out the door. Keeps the belt rolled into a neat roll at the floor level near the front seat.

Hand portable spotlight

Works in any 12 volt cigarette lighter.

FRONT CONTOUR MATS

REAR CONTOUR MATS

Contour rubber floor mats

Mats are made of all new rubber and will stay colorful and pliable. Easily cleaned with soap and water. Available in colors to match interiors.

Fire extinguisher recharge kit

A "Do-It-Yourself" kit that can safely recharge the fire extinguisher in just a few minutes.

Engine block heater

A new item to keep coolant warm for easier starting during cold weather.

Your One-Stop Headquarters for all your Transportation Needs

MAY WE SERVE YOU SOON FOR ALL YOUR TRANSPORTATION NEEDS!
